Announcing the
MARC HONORS PROGRAM

Applicants must be U.S. citizens or permanent residents

MAXIMIZING ACCESS TO RESEARCH CAREERS (MARC)

For ten Juniors* or Seniors* in Biology, Chemistry & Biochemistry, Physics, Mathematics or Computer Science

Application Due Date: March 18, 2016

Applicant Profiles are being accepted for Academic Year 2016-2017
Program begins: June 1, 2016

Purpose: To prepare students from underrepresented groups (**African-American, Native American, Hispanic American and Pacific Islanders**) for biomedical careers by providing academic support and a stimulating research experience. The goal of the MARC program is to prepare each participant for entrance into a competitive graduate program and successful completion of a Ph.D. in the biomedical sciences.

Program Activities and Financial Support:

- $12,096 per year and 60% tuition for the Junior and Senior years
- Summer Research Internship at SFSU after Sophomore year
- Summer Research at a major research institution after Junior year
- Travel to a major scientific meeting to share research results

****Junior*** is defined as being two years from graduation.
****Senior*** is defined as being one year from graduation

Please provide the following:

1) "Undergraduate Applicant Profile" form

2) 1-2 page "Statement of Purpose" describing your career goals and interests

3) 2 (no more than 3) letters of recommendation from science faculty that address:

- your potential for graduate study
- your potential for a career in basic biomedical science

4) "All Science Transcript Form" and unofficial copies of your transcript(s)
