Acknowledgements

In addition to the authors, a number of individuals contributed to the development and validation of ATI scores. Contributions were numerous and included item generation, data collection, statistical analyses, manuscript reviews, and translation. Several individuals also provided insightful feedback on earlier versions of the ATI. The authors would like to publicly acknowledge the contributions made by the organizations and individuals listed below.

Adolescent Time Inventory

The Adolescent Time Inventory (ATI; Mello & Worrell, 2007) was developed to measure how adolescents' think and feel about the past, the present, and the future. The ATI is based on a conceptual model of time perspective in adolescence articulated in Mello and Worrell (2015). The ATI consists of five components, including time meaning, time frequency, time orientation, time relation, and time attitudes. Each component can be used separately. The ATI has been translated into *Albanian* (Mello, Worrell, Laghi, Baiocco, & Lonigro, 2011), *Chinese* (Mello, Worrell, Ling, & Xu, 2013), *Farsi* (Mello, Worrell, Rashid, & Fathi, 2013), *Hindi* (Mello, Worrell, & Kaur, 2016), *German* (Mello, Worrell, & Buhl 2008; Buhl & Lindner, 2009), *Italian* (Mello et al., 2011), *Japanese* (Mello, Worrell, & Chisima, 2014), *Spanish* (Mello, Worrell, Anguiano, & Mendoza-Denton, 2010), and *Swedish* (Mello, Z. R., Worrell, F. C., Åström, E., & Carelli, 2014). There are also Polish, Portuguese, and Turkish versions in development.

Time Meaning

Time meaning (ATI-TM) refers to individuals' definitions of the past, the present, and the future. Time meaning is the first section of the ATI and is assessed with three open-ended questions. This section results in data that are analyzed qualitatively. Preliminary evidence suggests adolescents vary in how they define the time periods and that they use analogies, affect, and relationships among the time periods to conceptualize time (Andretta et al., 2010; Mello, Bhadare et al., 2009).

Time Frequency

Time frequency (ATI-TF) refers to how often adolescents think about the past, the present, and the future. Time frequency is the second section of the ATI and is assessed with three questions on the frequency with which individuals think about the past, the present, and the future. Originally scored with a four-response option (see Mello, Worrell, & Andretta, 2009), the updated version of ATI-TF questions use 5-point Likert scales with options ranging from *never* to *often*. Research has shown that time frequency is associated with academic achievement (Mello, Worrell et al., 2009).

Time Orientation

Time orientation (ATI-TO) refers to the relative emphasis an individual places on each time period. It is the third section of the ATI and is assessed with sets of circle configurations, with circle size indicating importance or relative orientation among time periods. There are seven configurations from which respondents choose one. Studies indicate that time orientation is related to psychological outcomes and risky behaviors in adolescents (Mello, Finan, & Worrell, 2013; Mello, Worrell, & Bhadare, 2008).

Time Relation

Time relation (ATI-TR) refers to the degree that individuals perceive the past, the present, and the future to be related. It is the fourth section of the ATI and is also assessed with sets of circle configurations. There are four configurations from which respondents choose one. The amount of overlap among the circles indicates how individuals perceive the relationship among time periods. Time relation has been associated with academic outcomes, psychological outcomes, and risky behaviors in adolescents (Mello et al., 2008, 2013).

Time Attitudes

Time attitudes (ATI-TA) refer to positive and negative attitudes toward the past, the present, and the future. Referred to as the ATAS in early studies, the ATI-TA subscales consist of six 5-item subscales: Past Positive, Past Negative, Present Positive, Present Negative, Future Positive, and Future Negative. Descriptive statistics and preliminary evidence for the psychometric properties of ATI-TA scores are presented below. Psychometric data are taken from published studies (i.e., Andretta, Worrell, & Mello, 2013, 2014; McKay, Cole, Percy, Worrell, & Mello, 2015; Worrell et al., 2013) and from presentations at national and international conferences (Finan et al., 2012; Ling, Xu, Worrell, & Mello, 2014; Mello, Rashid, Worrell, & Fathi, 2014; Worrell, Mello, & International Collaborators, 2015; Worrell, Mello, & Oladipo, 2012).

Subscales. Means and standard deviations of ATI-TA scores typically are between 1.5 and 4.5, with standard deviations in the 0.6 to 0.7 range. Subscale distributions are neither skewed nor kurtotic, and correlations among the subscales were in keeping with theory. For example, correlations between positive and negative subscales are negative, and correlations within valence grouping (i.e., negative/negative, positive/positive) are positive. Correlations are in the medium to high range, with the highest correlations occurring between items in the same time period (e.g., Past Positive & Past Negative). Additionally, correlations between proximal time periods (i.e., Past and Present scores and Present and Future scores) are generally higher than correlations between more distal periods (i.e., Past and Future scores).

Internal consistency. Cronbach's alpha has been used to examine the internal consistency estimates of ATI-TA scores on the six subscales in samples in several different countries (see Table 1 below). These reliability estimates have generally been acceptable, and MacDonald's omega estimates have been similar. With some exceptions for the two future-oriented subscales on which work continues, most items contribute substantially to the reliability of the scores across countries.

Table 1. ATI-TA Reliability Estimates by Subscale and Country

Alpha (α) Estimates by Country (N)	Past Pos	Past Neg	Pres Pos	Pres Neg	Fut Pos	Fut Neg
US 1	.80	.79	.77	.77	.83	.81
US 2	.87	.81	.81	.83	.89	.77
US 3	.88	.90	.89	.87	.92	.84
Germany	.88	.84	.87	.77	.84	.81
New Zealand	.85	.89	.90	.86	.90	.82
Iran	.80	.83	.84	.84	.64	.70
China	.77	.76	.75	.80	.75	.76
Northern Ireland (UK)	.82	.83	.83	.80	.82	.69
Scotland (UK)	.74	.81	.81	.80	.78	.72
Nigeria	.74	.80	.75	.70	.73	.65
Albania	.80	.78	.80	.72	.61	.39
Italy	.88	.85	.91	.87	.84	.43
Peru	.81	.85	.82	.71	.82	.62
Sweden	.92	.89	.95	.85	.94	.83

Structural validity. Confirmatory factor analyses (CFA) results for the six-factor ATI-TA model are presented in Table 2 for several countries, with sample sizes ranging from 190 to 2,395. In most instances, the 30-item six-factor structure had the best fit, with all of the indices within the recommended ranges. Standardized coefficients for the items are also typically $> .50$. However, as reported for the reliability coefficients, a few future-oriented items have been eliminated to achieve acceptable fit. Re-translations of these items are an ongoing priority. In general, these results suggest that the ATI-TA is best described as a six-factor model of time attitudes with subscales of positive and negative valence representing the three time periods.

Table 2. Fit Indices by Country

Fit Indices by Country	X ² /df	NNFI >.90	CFI .90	SRMR < .08	RMSEA < .05	95% C.I.
US 1	1.40	.937	.944	.059	.037	.029, .044
US 2	1.75	.959	.963	.045	.032	.028, .036
US 3	2.83	.946	.952	.038	.041	.038, .044
Germany	1.34	.960	.965	.050	.033	.025, .040
New Zealand	1.97	.950	.955	.045	.041	.037, .045
Iran	3.23	.926	.935	.061	.043	.040, .046
China	1.46	.902	.912	.065	.042	.034, .049
Northern Ireland	2.86	.938	.944	.038	.034	.032, .037
Scotland	2.07	.927	.935	.044	.036	.033, .040
Nigeria (28 items)	1.32	.895	.907	.074	.040	.029, .050
Albania (28 items)	1.49	.944	.951	.050	.045	.036, .053
Italy (28 items)	1.42	.911	.921	.054	.037	.029, .044

Convergent and discriminant validity. Time attitude scores in the American sample were not meaningfully related to age (within the adolescent years), academic achievement, or academic self-concept ($\alpha = .87$). However, time attitudes were related other constructs assessing time, including hope (Snyder et al., 1997; $\alpha = .82$), optimism (Scheier & Carver, 1984; $\alpha = .74$), and perceived life chances (Jessor, Donovan, & Costa, 1990; $\alpha = .87$). Time attitudes were also related to constructs assessing psychological well-being, including global self-esteem (Rosenberg, 1965; $\alpha = .83$) and perceived stress (Cohen, Kamarck, & Mermelstein, 1983; $\alpha = .71$). Moreover, the pattern of relationships those ATI-TA scores had with these variables is consistent with their theoretical underpinnings (see Worrell & Mello, 2009).

Scoring the ATI

Time Meaning (ATI-TM)

Time meaning questions are open-ended and generate qualitative data.

Time Frequency (ATI-TF)

Time frequency has five values— Almost Never, Seldom, Sometimes, Often, Almost Always—for each of the three time periods.

Time Orientation (ATI-TO)

Time orientation has seven values that correspond to the item numbering: Figure 1 (*Past Oriented*), Figure 2 (*Present Oriented*), Figure 3 (*Future Oriented*), Figure 4 (*Past-Future Oriented*), Figure 5 (*Past-Present Oriented*), Figure 6 (*Present-Future Oriented*), and Figure 7 (*Balanced*).

Time Relation (ATI-TR)

Time relation has four values that correspond to the item numbering: Figure 1 (*Unrelated*), Figure 2 (*Present-Future Related*), Figure 3 (*Linearly Related*), and Figure 4 (*Interrelated*).

Time Attitude (ATI-TA)

Time attitude includes six subscales that correspond to the following listed items. Subscale scores are generated by calculating the average responses of the five items making up each subscale. Given the high intercorrelations among subscales assessing the same time period, researchers should check for multicollinearity when conducting analyses using positive and negative subscales.

Past Positive: 3, 9, 21, 24, 30

Past Negative: 6, 12, 15, 18, 27

Present Positive: 5, 11, 14, 17, 26

Present Negative: 2, 8, 20, 23, 29

Future Positive: 1, 7, 13, 19, 28

Future Negative: 4, 10, 16, 22, 25

Appendix A

The Adolescent Time Inventory- English

Zena R. Mello & Frank C. Worrell (2007)

The Adolescent Time Inventory – English

Write a response to each question below.

1. How do you define the past?

2. How do you define the present?

3. How do you define the future?

Select one response for each question.

	Almost Never	Seldom	Sometimes	Often	Almost Always
1. How often do you think about the <u>past</u> ?	O	O	O	O	O
2. How often do you think about the <u>present</u> ?	O	O	O	O	O
3. How often do you think about the <u>future</u> ?	O	O	O	O	O

Instructions: Select **one** figure below that shows how **important** the past, the present, and the future are to you, with larger circles being more important to you.

Figure 1. O

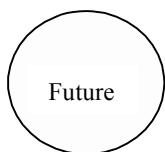

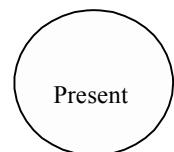

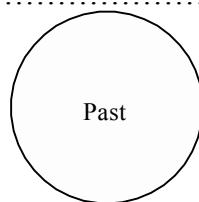

Figure 2. O

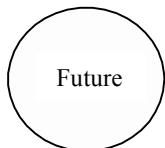

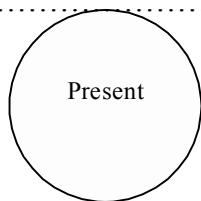

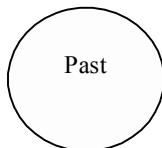

Figure 3. O

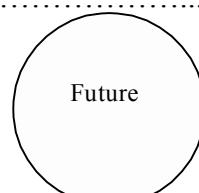

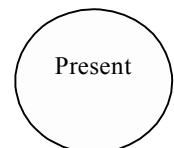

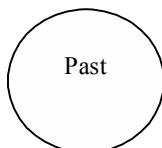

Figure 4. O

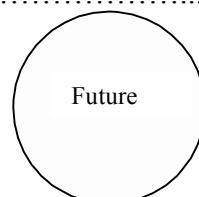

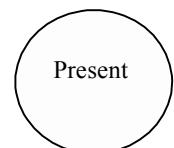

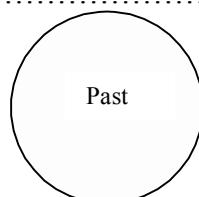

Figure 5. O

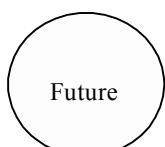

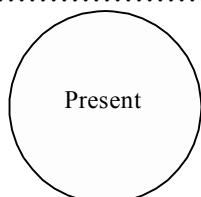

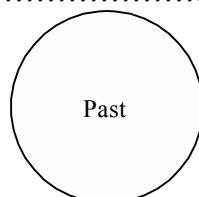

Figure 6. O

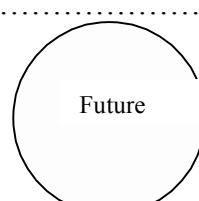

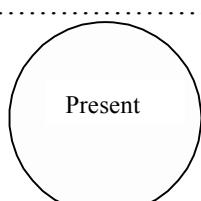

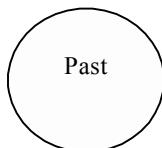

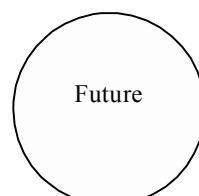

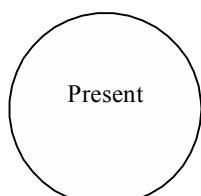

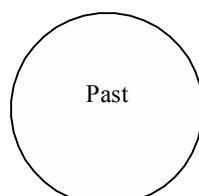

Figure 7. O

Instructions: Select one figure below that shows how you view the **relationship** among the past, the present, and the future.

Figure 1. O

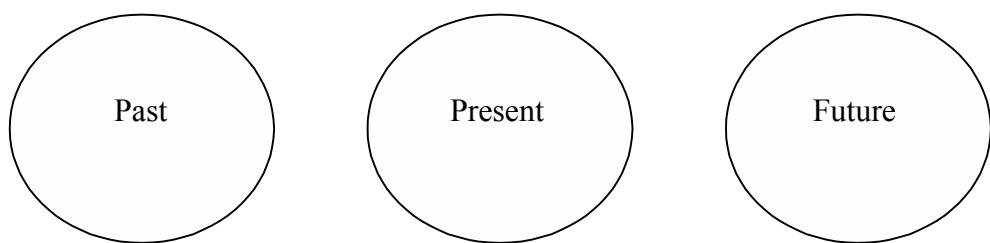

Figure 2. O

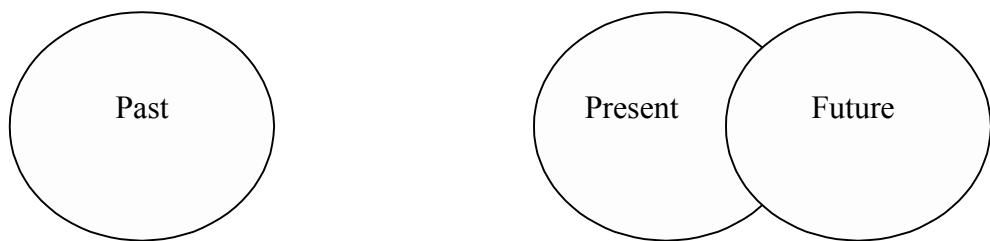

Figure 3. O

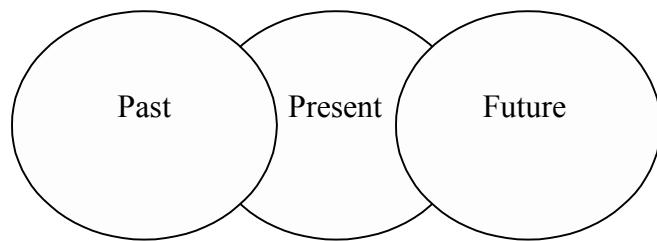

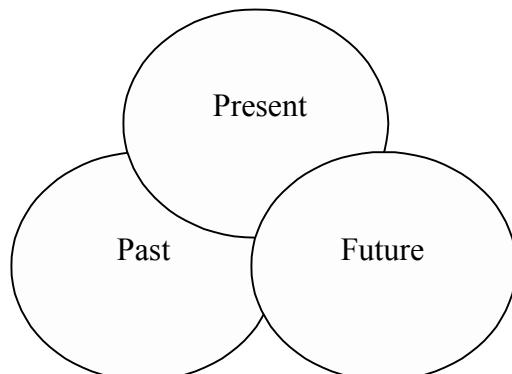

Figure 4. O

Select one response for each question.

	Totally Disagree	Disagree	Neutral	Agree	Totally Agree
1. I look forward to my future.....	<input type="radio"/>				
2. I am not satisfied with my life right now.....	<input type="radio"/>				
3. I have very happy memories of my childhood.....	<input type="radio"/>				
4. I doubt I will make something of myself.....	<input type="radio"/>				
5. I am happy with my current life.....	<input type="radio"/>				
6. My past is a time in my life that I would like to forget.....	<input type="radio"/>				
7. My future makes me happy.....	<input type="radio"/>				
8. I have negative feelings about my current situation.....	<input type="radio"/>				
9. I have good memories about growing up.....	<input type="radio"/>				
10. I don't think I'll amount to much when I grow up....	<input type="radio"/>				
11. I am pleased with the present.....	<input type="radio"/>				
12. I am not satisfied with my past.....	<input type="radio"/>				
13. My future makes me smile.....	<input type="radio"/>				
14. I am content with the present.....	<input type="radio"/>				
15. My past makes me sad.....	<input type="radio"/>				
16. Thinking about my future makes me sad.....	<input type="radio"/>				
17. Overall, I feel happy about what I am doing right now.....	<input type="radio"/>				
18. I wish that I did not have the past that I had.....	<input type="radio"/>				
19. I am excited about my future.....	<input type="radio"/>				
20. I am not satisfied with my present.....	<input type="radio"/>				
21. I have happy thoughts about my past.....	<input type="radio"/>				
22. I don't like to think about my future.....	<input type="radio"/>				
23. I am not happy with my present life.....	<input type="radio"/>				
24. I like to think about my past because it was such a happy time for me.....	<input type="radio"/>

The Adolescent Time Inventory- Italian

Zena R. Mello, Frank C. Worrell, Fiorenzo Laghi, Roberto Baiocco, & Antonia Lonigro (2011)

The Adolescent Time Inventory – Italian

Scrivi una risposta per ognuna delle seguenti domande.

1. Come definisci il **Passato**?

2. Come definisci il **Presente**?

3. Come definisci il **Futuro**?

Quanto spesso pensi al ...

	Quasi Mai	Raramente	A volte	Spesso	Quasi Sempre
... Passato ?	<input type="radio"/>				
... Presente ?	<input type="radio"/>				
... Futuro ?	<input type="radio"/>				

Seleziona una delle figure riportate qui sotto; segna la figura che mostra quanto sia importante per te il passato, il presente e il futuro. Più i cerchi sono grandi più vuol dire che quella dimensione per te risulta importante.

Ricorda che devi soltanto segnare una delle sette figure.

Figura 1.

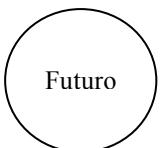

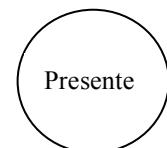

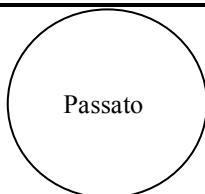

Figura 2.

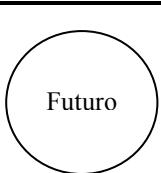

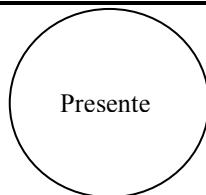

Figura 3.

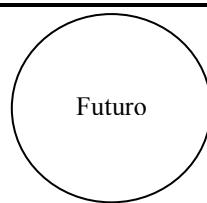

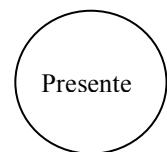

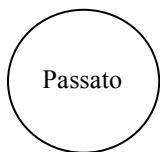

Figura 4.

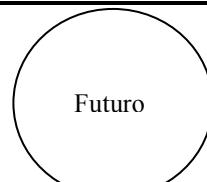

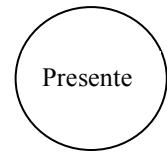

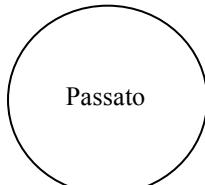

Figura 5.

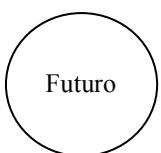

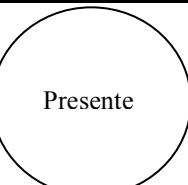

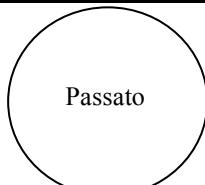

Figura 6.

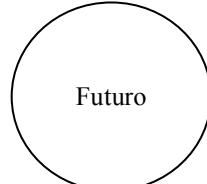

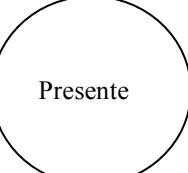

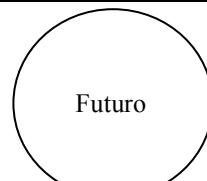

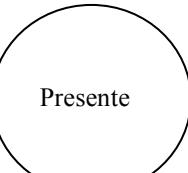

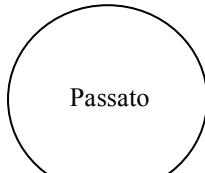

Figura 7.

Seleziona una delle figure riportate qui sotto; segna la figura che per te mostra la relazione tra passato, presente e futuro. Anche per questa sezione ricorda che devi segnare soltanto una delle quattro figure.

Figura 1.

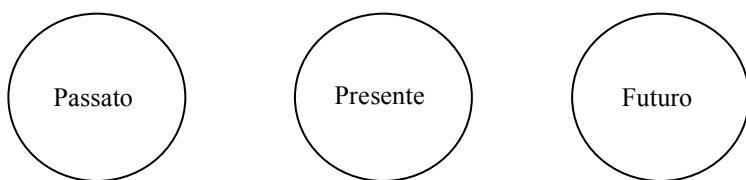

Figura 2.

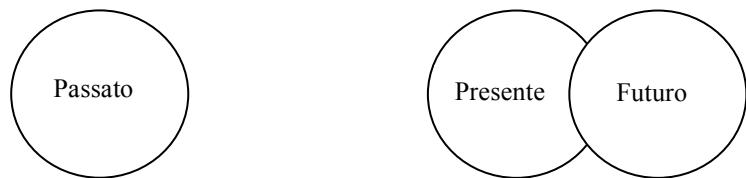

Figura 3.

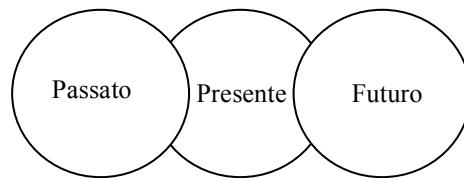

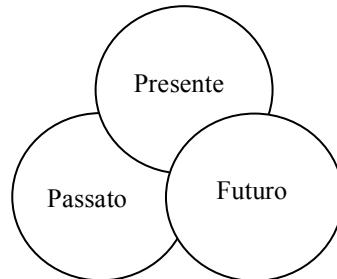

Figura 4.

Rispondi alle seguenti domande.

	Completemente in disaccordo	In disaccordo	Né d'accordo né in disaccordo	D'accordo	Completemente d'accordo
1. Sono proiettato nel futuro.	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
2. Attualmente non sono soddisfatto della mia vita.	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
3. Ho ricordi molto felici della mia infanzia.	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
4. Dubito che farò qualcosa per me stesso.	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
5. Sono felice della mia vita attuale.	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
6. Il passato è un periodo della mia vita che vorrei dimenticare.	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
7. Il futuro mi rende felice.	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
8. Ho sentimenti negativi rispetto alla mia situazione attuale.	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
9. Ho bei ricordi di quando ero piccolo.	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
10. Non penso di dare molta importanza al periodo della mia infanzia.	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
11. Sono felice del presente.	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
12. Non sono soddisfatto del mio passato.	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
13. Il futuro mi rende sereno.	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
14. Sono contento del presente.	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
15. Il mio passato mi rende triste.	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
16. Pensare al mio futuro mi rattrista.	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
17. Complessivamente mi sento felice di quello che sto facendo ora.	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
18. Desidererei non avere il passato che ho avuto.	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
19. Sono eccitato rispetto al mio futuro.	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
20. Non sono soddisfatto del mio presente.	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
21. Ho pensieri felici riguardo al mio passato.	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
22. Non mi piace pensare al futuro.	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
23. Non sono felice della mia vita attuale.	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
24. Mi piace pensare al passato perché è stato un periodo felice per me.	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
25. Pianificare il futuro è inutile.	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
26. Complessivamente sono felice della mia vita attuale.	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
27. Ho pensieri spiacevoli sul mio passato.	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
28. Pensare al mio futuro mi eccita.	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
29. La mia vita attuale mi preoccupa.	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
30. Il mio passato è pieno di ricordi felici.	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
